MEMORANDUM

TO: Dr. David Wentling
Assistant Vice President for Graduate Studies

FROM: Dr. Charles Kenerley
Associate Dept Head, PLPM

SUBJECT: Course Withdrawal

The Department of Plant Pathology and Microbiology added three new courses to its graduate program as part of a curriculum revision. These courses were PLPA 630 (Fungi: Physiology and Genetics), PLPA 631 (Fungi Laboratory), and PLPA 632 (Fungi Cell Biology and Taxonomy), and they were approved by the appropriate TAMU Committees. The intention of the Department was to withdraw PLPA 625 and replace this older course with these three new ones. The rationale for this revision was to increase flexibility among our graduate students for course selection and provide a series of varying credit course for students outside our program. The expertise of our faculty and the needs of our students have changed regarding the context of PLPA 625. Thus, we seek to withdraw from the catalog PLPA 625.
