Climate of Respect

As a major public institution of higher education, Texas A&M University has both an extraordinary opportunity and a special responsibility to create and maintain a climate that affirms diversity of persons as well as diversity of views. Diversity is an indispensable component of academic excellence. A commitment to diversity means a commitment to the inclusion, welcome, and support of individuals from all groups, encompassing the various characteristics of persons in our community. Among these characteristics are race, ethnicity, national origin, gender, age, socioeconomic background, religion, sexual orientation, and disability. As we harness the power of diversity, we will provide students, faculty, and staff a university experience rich in perspectives and opportunities to learn from each other. In the spirit of shared responsibility, we encourage each University unit, student organization, and campus community member to help make our campus a welcoming place for all.

Report
Incidents of hate/bias: stophate.tamu.edu
Concerning behavior: tellsomebody.tamu.edu
Polling Question:
How did you primarily address conflict with faculty, staff, or fellow students at your undergraduate institution?

A. I didn’t- I ignored the conflict and hoped it would resolve itself
B. I had a peer (or group of peers) to support me and help me find solutions
C. I had a mentor within the university (faculty or staff) that listened to my problems and offered solutions
D. I utilized campus resources such as the Student Counseling Center (or equivalent) to find ways to resolve conflict
Assist
- Solving conflicts, disputes, and complaints informally

Safe Environment
- Impartial and confidential advice

Assess and Identify
- Trends in graduate student success using general, de-identified feedback

Contact information:
Office of Graduate and Professional Studies
ombuds@tamu.edu
Graduate Student Ombuds Officer

A safe place to explore solutions to conflicts with faculty, administrators, staff members, or peers

Conversations are confidential and informal

Can help explain university policies and procedures

Is neutral and helps individuals find fair and equitable solutions to problems

Identifies trends in graduate student concerns and can recommend changes to University policies or procedures
